NELAP Accredited Laboratory — Cert. No. TX-11842 | ISO/IEC 17025:2017

CERTIFICATE OF ANALYSIS — WASTE CHARACTERIZATION

REPORT NO. MAL-2026-04217	DATE REPORTED August 07, 2026
CLIENT Prairiehawk Resources LLC	PROJECT / SITE Blackrun Federal 14-2H Pad, Reeves County, TX
SAMPLE ID PH-BR14-TB01	SAMPLE MATRIX Tank Bottom Sludge (Solid/Semi-Solid)
DATE COLLECTED July 29, 2026, 10:15 CDT	DATE RECEIVED July 30, 2026, 08:40 CDT
COLLECTED BY J. Alvarado (Prairiehawk EHS)	CHAIN OF CUSTODY NO. COC-77291

1. Case Narrative

One (1) solid/semi-solid sample was submitted for waste characterization to support disposal profiling of tank bottom residue generated during vessel cleanout at the referenced well pad. TCLP extraction (Method 1311) was performed for RCRA metals and volatile organics. All QC met acceptance criteria unless noted below.

2. Physical & Bulk Characteristics

Parameter	Result	Method	Reporting Limit	Flag
pH (aqueous phase)	6.4 SU	SW-846 9045D	—	Pass
Flash Point	> 200 °F	ASTM D93	—	Pass
Total Petroleum Hydrocarbons (TPH)	18,400 mg/kg	SW-846 8015D	10 mg/kg	—
% Moisture	22.1 %	SM 2540 G	—	—
Ignitability	Negative	SW-846 1030	—	Pass

3. TCLP Metals (Method 1311 / 6010D)

Analyte	Result (mg/L)	RCRA Limit (mg/L)	Reporting Limit	Flag
Arsenic	0.041	5.0	0.010 mg/L	Pass
Barium	3.82	100.0	0.10 mg/L	Pass
Cadmium	< 0.005	1.0	0.005 mg/L	Pass
Chromium (Total)	0.088	5.0	0.010 mg/L	Pass
Lead	0.612	5.0	0.010 mg/L	Pass
Mercury	< 0.0002	0.2	0.0002 mg/L	Pass

4. Volatile Organics — BTEX (Method 8260D)

Analyte	Result (mg/kg)	Reporting Limit	Flag
Benzene	3.9	0.05 mg/kg	Elevated*
Toluene	22.6	0.05 mg/kg	—
Ethylbenzene	8.1	0.05 mg/kg	—
Total Xylenes	41.3	0.05 mg/kg	—

*Above internal screening level; not a federal RCRA threshold for this waste stream. Recommend disposal facility review under state LDR.

5. Waste Classification Summary

The sample does not exhibit RCRA characteristics of ignitability (D001), corrosivity (D002), reactivity (D003), or toxicity (D004–D043). Final manifest classification remains the generator's responsibility.

I certify that this report has been reviewed and approved for release, and that the test results relate only to the sample(s) tested, analyzed in accordance with the referenced methods and the laboratory's NELAP-accredited quality system.

Dr. L. Whitfield, Laboratory Director
